APPLIED
Industrial Technologies®

We Are **Applied**SM

Industrial Motion, Fluid Power, Flow Control,
Automation, Maintenance Supplies

Applied Industrial Technologies is a leading value-added distributor and technical solutions provider of industrial motion, fluid power, flow control, automation technologies, and related maintenance supplies.

Our multi-channel capabilities provide choice, convenience, and expertise to MRO and OEM end users in virtually all industrial markets.

Industrial Motion:

We Are committed to keeping your critical systems up and running, from bearings and gearboxes to industrial motors and material handling.

Fluid Power:

We Are the world's largest fluid power distributor. Applied Fluid Power® is your resource for dedicated fluid power application expertise and custom designed solutions.

Flow Control:

We Are a leading process flow control company. Our highly technical sales team provides mission-critical products and services for everything on the pipe.

Automation:

We Are an emerging provider of motion control, machine vision, connectivity products and robotic technologies with an emphasis on design, integration and assembly.

Maintenance Supplies:

We Are C-Class maintenance, repair, operating and production (MROP) supplies, specializing in fasteners, cutting tools, paints and chemicals, fluid flow, safety and welding.

E-Business:

We Are today's digital technologies, offering customization to streamline the online procurement process.

Critical Components, Technical Solutions

Applied® has partnered with more than 4,000 world-class manufacturers that lead the industry with the most innovative, efficient and reliable industrial products.

More than ever before, our comprehensive portfolio of products and services – combined with our specialized expertise and know-how – is bridging today's challenges with tomorrow's opportunities.

Simply stated – We Are All Things Industrial®... We Are AppliedSM

Applied Fluid Power® Companies

Count on Applied® and its fluid power companies to deliver solutions. Our growing network of 70+ fluid power sales and service facilities is your resource for dedicated fluid power support, including:

- System Integration
- Manifold Design
- Machining & Assembly
- High Velocity Oxy-Fuel (HVOF) Cylinder Resurfacing
- Electronic Controls
- Fabrication
- Fluid Filtration
- High Speed Hose Assembly
- Engineering
- Repair Services

Value-Added Services

From rebuild and design to inventory management and training, Applied® offers a host of specialized, value-added services that support needs beyond just sourcing products. Our offerings help make you more efficient, productive and profitable. And, like our products, you can trust that our services are backed by the most knowledgeable specialists who understand and appreciate your processes.

Customized Repair Shop Services

Applied® Specialty Repair / Rebuild Shops offer cost-effective alternatives to purchasing new parts. Our associates can identify what's best for your worn parts and assemblies, whether it's repair, rebuild, replacement or even a new, more efficient system. Parts are reworked to their original or improved design specifications and fully tested.

AREAS OF REPAIR EXPERTISE

- Ball Screw Repair
- Bearing Repair
- Circuit Board Repair
- Conveyor Belt Installation & Repair
- Cylinder Repair
- Electric Motor Repair
- Electrical Component Repair
- Gear Reducer Repair
- Hydraulic & Pneumatic Part Repair
- Live Center Repair
- Mechanical Part Repair
- Reducer Repair
- Servo Motor Repair
- Spindle Repair
- U-Joint & Coupling Shaft Repair

Hose Shops

Rely on Applied® for convenient, single-source purchasing of your industrial hose needs – hose in bulk and assemblies. For fabricated hose assemblies, Applied® Hose Shops are Continental STAR Certified. This Underwriters Laboratories (UL®) certification ensures that we fabricate reliable and consistent hose assemblies utilizing The Association for Hose and Accessories Distribution (NAHAD) best practices. The shops are strategically located to provide quick response time and delivery.

HOSE FABRICATION

- Hydraulic
- Chemical
- Petroleum
- Sanitary
- Stainless over Teflon®
- Crimped Steam
- Water / Multipurpose
- Material Handling

CAPABILITIES

- Up to 10" Crimp
- Hydraulic Hose Testing (up to 40,000 psi)
- Industrial Hose Testing (up to 1,500 psi)
- Clean & Cap
- Hose Tagging
- Hose Tracking
- Custom Laser Etching

Industrial Rubber Services

Our rubber shops act as full-service fabricators and warehouses for large bulk rolls of belting inventory. The Applied® Rubber Field Services team includes well-trained field service technicians who provide dependable, high-quality belt splicing and repair service at your job site.

FABRICATION & FIELD CAPABILITIES

- A Complete Line of Wear Products
- Bucket Installation
- Cleat Work (Hot & Cold Bond)
- Complete Field Stringing & Installation
- Continental Conveyor Belting Inventory
- Hole Punching
- Lacing
- Rubber & Ceramic Pulley Lagging
- Sheet Rubber Cutting
- Skirtboard Fabrication
- Slitting
- Specialty Conveyor Accessories
- V-Guiding (Hot & Cold Bond)
- Vulcanizing

Linear Shop Services

Applied® offers services to meet a wide range of linear needs. Whether you require an identical part replacement, system updating or an entirely new custom-designed system, Applied® has the capabilities to meet your requirements.

- Stock & Ship Random Lengths of Round Rail Shafting (Metric & SAE Sizes)
- Cut-to-Length Round Rail Shafting
- Cut-to-Length Profile Rails
- Block-to-Rail Mounting

Documented Value-Added® (DVA®)

DVA® is a comprehensive report that details what you save as a result of the products and services you purchase from Applied®. Whether we help you install energy efficient motors, implement a storeroom management system or provide you with technical training, DVA® documents the hard numbers that impact your bottom line.

Technical Training

Our MaintenancePRO® courses train your personnel to understand your parts and products, including proper installation, maintenance and service life. Visit www.Applied.com/training for a complete course listing.

We Are All Things Industrial®... We Are AppliedSM

Enhanced Differentiation

- Pursuing innovative ways to collaborate with customers & suppliers
- Maximizing productivity & investment returns
- Investing in emerging technologies that help reduce downtime & MRO costs

Local Support

- 560+ operating facilities
- 5,900+ employee associates
- 70+ fluid power sales & service facilities
- 65+ flow control sales & service locations
- 25+ specialty repair & rebuild shops

Trusted Brands

- Supporting strong supplier partnerships & product authorizations
- Representing more than 4,000 world-class manufacturers & 7.5 million products

Expertise

- Providing years of experience & solid understanding of industrial processes & applications
- Advancing the knowledge of our industry experts to help achieve maximum life from your operations

Documented Value-Added® (DVA®)

- Demonstrating how much customers will save as a result of the products & services they purchase from Applied®
- Impacting your bottom line through increased product life, reduced production downtime, & other measurable savings opportunities

Shops and Repair Services

- Specializing in assembly & service of industrial / hydraulic hose
- Serving light / heavyweight conveyor belting needs, as well as mechanical & electrical repair, plus more

Premium Brands, Proven Performance

Applied® represents leading manufacturers with the highest quality brands, providing customers immediate access to industrial parts and inventory management solutions that save money and improve uptime. Our joint efforts, vendor programs and product authorizations help us find and offer new, innovative solutions.
